

WOMEN IN LOGISTICS FORUM

POLAND

WOMEN IN LOGISTICS FORUM

What is the Forum?

This is a unique business platform of the female community in the logistics industry - the only one of its kind in Poland - dedicated to women: managers, leaders, and specialists in the logistics sector, as well as those in distribution, production, and other industries connected with logistics. Every year women gather at the annual conference under the same name.

The Forum serves as a business and networking platform designed for the exchange of knowledge and experiences, fostering the establishment of business relations, especially among women, and offering support to one another.

The community of the Forum consists of 700 women leaders and managers as well as men. We extend invitations to both women and men, including managers and leaders.

Where does it take place, and how many people participate?

Each year, since 2011, the Forum brings together **160 to 300 participants** and is held in various cities such as Warsaw, Gdańsk, Krakow, others.

In 2024, 12 edition of the Forum will take place in Warsaw.

Partners and Patrons!

The Forum attracts numerous Partners, leading companies in the logistics market.

Some Partners such as Prologis, DB Schenker, Raben Group, GS1

have supported the Forum for 12 years, since the first edition of the Forum.

We also invite universities and logistics associations to join us as Patrons: WSL, PSML, PISiL, PTL.

Communication

We keep the logistics industry informed through our media Patrons.

Additionally, after each Forum, we publish a post-conference issue in PDF format.

The culmination of the Forum is the Gala Dinner and Award Ceremony during which we honor:

the "Woman of the Year in the logistics sector"

the award is granted in two categories: logistic services provider and logistic services recipient.

the „Master of ESG in the logistics sector”

the award is granted in three categories: climate, governance, social activity

Research and reports

Women in Logistics Forum, as the business platform of the Polish women in logistics community has also published and introduced their own reports, such as **“Women’s leadership in logistics – where are we and what comes next?”** (December 2022), **Strengths and weaknesses of 3PL companies in supporting women’s leadership in the logistics sector** (December 2023).

The main aim of the reports is to recognize and define the potential barriers on the way to career advancement of women in logistics, especially in the area of promoting them to higher managerial and executive positions.

The research and the reports were conducted by: Prof. Danuta Kisperska-Moroń, University of Economics in Katowice and Beata Trochymiak, the founder of Women in Logistics Forum.
